COUNTY COMMISSIONERS.

The Canvassing of Election Returns Was the Principal Business before the Board.

The board of county commissioners met in this city November 10 for the purpose of canvassing the returns of the election of November 4. There were present John Greenwald, chairman, Matias Contreras, and H. G. Baca, clerk and interpreter.

The board had been enjoined by the district court from canvassing the returns of any precinct in which Independent Republican ballots were cast. The board were furthermore unable to determine from the certificates of the judges of election of the various precincts in what precincts, if any, such Independent Republican ballots had been cast. The board therefore caused copies of the certificates to be made and attached to their answer to the court. Damacio Baca and C. A. Baca were appointed deputy clerks to make such copies.

It was found that the returns of precinct No. 24 had not been signed by the judges and clerks of election of that precinct. The board ordered that said officers be subpoenaed to appear and sign the certificates as required, which was done.

Wednesday, November 12, the board adjourned to meet on the 14th inst., for the reason that in compliance with writs of mandamus and injunction served on the board the probate clerk was obliged to appear before the court at Albuquerque on the 13th with the ballot boxes of the county.

It was found impossible for the board to meet on the 14th pursuant to adjournment, for the reason that the trial of the case under writ of mandamus and injunction had not been completed.

On Monday, November 17, the board met as a board of canvassers. All members of the board were present, also H. G. Baca, clerk and interpreter. The returns of the judges and clerks of election were then canvassed in due form as ordered by Judge Benjamin S. Baker of the second judicial district, and as required by law.

The purported returns of San Antonio precinct, No. 7, alleged to have been signed by Antonio J. y Baca, Luis Van Damme, and Sorobabel Chavez as judges of election were counted in compliance with the order of the court. The board decided, however, that said purported election returns were not the election returns in fact of said precinct, for the reason that the regularly appointed judges of election of that precinct had duly made their returns. As a result of the canvass of the returns of said precinct it was found that 95 votes had been cast therein.

A. A. Sedillo made a motion in writing which was passed.

On completing the canvass of the returns of the various precincts of the county it was found that the various candidates for office had received exactly the total number of votes as given in the tabulated vote of the county on the fourth page of this issue of the Chieftain. The successful candidates were therefore duly declared elected and certificates of election were issued to them by the board.

It was ordered that the clerk spread on the minutes of the proceedings of the board a list of all the judges and clerks of election. By the order of the board the ballot box of precinct No. 7 was opened in the presence of A. A. Sedillo for the purpose of taking the names of the judges and clerks of that precinct.

The clerk was ordered to issue a warrant for \$14.05 payable out of the county general fund in favor of J. D. Sena for certified copy of opinion.

It was ordered that Elias E. Baca be employed by the board at the rate of \$2.00 a day or night as required from November 5 as watchman with the clerk in the office in which the ballot boxes of the last election are held.

The board adjourned Tuesday evening, November 11, to meet in regular session in January or at the call of the chairman.

Attest: JOHN GREENWALD, H. G. BACA, Chairman, Clerk.
